Educators hustle harder. What if they could hustle smarter? Ensure student success by giving educators a better way to approach lesson planning.

**GALE IN CONTEXT: FOR EDUCATORS**

Fueled by Gale In Context student databases, this powerful resource gives educators a specialized toolkit to collect, organize, customize, and share instructional materials for lessons by easily integrating into their workflow.

**DISCOVER resources targeted to class curriculum**

- Search across Gale In Context databases by subject or keyword.
- Browse up-to-date national and state curriculum content standards.
- Find instructional content, lesson plans, activities, and project plans by discipline and course.
- Support learning at all levels.

**CUSTOMIZE resources to support different learning needs**

- Create interactive documents with inserted prompts, critical thinking questions, or links to other resources.
- Assemble resources to assign to students as reading lists or lesson menus.
- Organize and tag resources for lesson planning.
- Help teachers deliver engaging instruction to empower students.

**COLLABORATE with colleagues and share with students**

- Design a personal profile to create and save multiple lessons.
- Use Google Classroom, Drive, or LMS to share a single document, an annotated document, or resource collection.
- Send resources or set up a shared folder for multiple colleague contributors.
- Set up a strong foundation for student researchers.

The result? Students are empowered to grow as critical thinkers and future-ready learners.
